

laminating film is easy to change

distance of roller adjustable (max. 6 mm)

temperature and speed are easy to adjust on a display

RECOsystems RL 106

laminator for laminating rolls

The RECOsystems RL 106 is a roll laminator where you can adjust speed, temperature (stepless) and mounting thickness. So you can reach a perfect laminating result which satisfies you and your customers. Because of the working width of 1050 mm the machine can be used for many formats. For this reasons the RL 106 is a very popular machine for graphic companies.

technische Daten:

- working width: 1050 mm
- hot roller system
- for hot an cold laminating
- double side laminating
- film thickness: 25 - 250 mic
- temperature adjustment: stepless
- 9 speed levels (max. speed 2,5 m/s)
- adjustable mounting thickness (max. 6 mm)
- heating up time: approx. 15 min.
- 230 V / 50 Hz
- 2400 W
- weight: 195/130 kg
- dimensions: 1570x900x700 mm / 1400x662x1200 mm *

*packing size/machine size (width x depth x height)
